BUSINESS

about us

about us

The consulting firm KAPPA was organized in 1989, with a group of experienced consultants who decided to combine their experiences and work to produce high-level technical consulting services..

The Technical Staff consists of qualified professionals, who have worked as consultants for international organizations, such as the World Bank (IBRD), Inter-American Development Bank (IDB), International Labor Organization as well as the binational entities Itaipú and Yacyretá, and of several public institutions of the Paraguayan State.

KAPPA Consultant, has executed consulting studies, projects, management and supervision in civil engineering projects, roads and bridges; industrial engineering, water treatment and pumping stations; Sanitary sewer, school buildings (IDB, IBRD) hospital buildings (IDB, IBRD).

He is currently incorporating the Consulting Department, for Advisory Services, Provision and Installation of Hardware and Software. Structured cabling and networking system, provision of computer supplies, etc.

The Consultant's work area is currently moving the national limits for projects, to the bordering South American countries to more than new perspectives that are developed in the African continent (Mozambique).

The central offices of KAPPA Consultora, are in the city of Asunción Republic of Paraguay, has a good team of consultants, equipment and financial support, which allow to quickly and effectively meet the most demanding specifications.
